

LUX NEO GEN COLLECTION 2023

INDIA'S LARGEST LUXURY FAN BRAND [®]
LUXAIRE
S I N C E 2 0 1 2

ABOUT US

LUXAIRE Luxury Fans was founded in **2012** by two marketing professionals, Nisha & Sachin Kukreja- equally passionate about Designer and Lifestyle living. The concept then, was that a Fan was just a fan – nothing else. We wished to change that to include not just aesthetics, but also technology, Style, Glamour, and a fair bit of wellness concept to Fans. Today, Luxaire's clients include CXOs, celebrities, hotel owners and professionals, in India, MENA and South Asia.

There are more than **780** SKUs under one roof; including **Original**, Patented & Award-winning designs from Fantasia(London), Faro(Spain), Fanimation(USA), Kichler(USA) etc. They offer showstopper models for Architectural projects in Heritage hotels, Modern offices, or Contemporary homes, with their plethora of Wooden ceiling fans, Chandelier fans, Decorative wall fans, Bladeless tower fans, and Flush mounted fans. Being the first to bring Luxury Ceiling Fans with **60%** energy savings, the Brushless Direct Current (BLDC motor) technology has become the norm today for Sustainable Interiors. Their *whisper quiet*, custom-made, subtle designs and angled blade pitches are fine tuned for better airflow, even at lower speeds. With Luxaire fans, clients' air-conditioned rooms are cooled all across (not merely beneath the fan) without any noise - allowing for a better *work-efficiency* or soothing sleep.

Luxaire believes in offering an unparalleled experience. Click our online [FAQs](#) for queries.

Welcome to a Whole New World of Luxury Living with Luxaire Original luxury Fans Collection!!!
